

BELARUS

Electronic NRB database (books to 1850 are included): <http://eir.nlb.by> (not comprehensive)

Period covered: from 1517 to data

The union electronic information resource (EIR) of the National Bibliography of Belarus provide functioning of universal bibliographic information about the entire repertory of different types of the national documents of Belarus (from 1517 to present day), which are kept in various institutions both in the country and abroad.

Responsible institution: the National Library of Belarus – the National Bibliographic Department ; contact person: Irina Griadovkina, the Head of the Department: i_gryadovkina@nlb.by

Resources in the national bibliography include a catalogue of documents kept in Belarusian libraries, national Fund of Technical Normative Legal Acts, State Register of Research, Technology, and Development Projects, Archives of Belarus, Databases of Industrial Property Objects, State Register of Information Resources of Belarus, Electronic catalog for “The State Bibliographic Information System, and the Standard Databank of Legal Information of the Republic of Belarus.

● Page with electronic informational resources of the National Library of Belarus with 14 databases available here: <https://www.nlb.by/en/information-resources/electronic-informational-resources/resources-of-the-national-library-of-belarus/>

Early printed books are included here: <https://belbook.nlb.by/>:

This database contains full text copies of publications from the collections of the National Library of Belarus, issued in 14th-18th centuries and related to Belarus by territorial, national (author’s origin), language and thematic criteria.

The database is constantly been supplemented. In the future it is planned it will include copies of documents from the collections of other libraries, including foreign ones, so that this resource will fully present the printed book heritage of Belarus in the global information space (♦ NB: *this is official information from the page, but the truth is, that all supplementing and development works on this database are almost stopped after 2020, most of our colleagues, who were working on this database were fired from the Library*)

Printed catalogue with early printed books available in printed form:

- *Кніга Беларусі. 1517–1917: зводны каталог*, сост. Г.Я. Галенченко и др. Минск, 1986

Kniga Belarusi, 1517-1917: zvodny katalog, ed. by H.I. Halenchanka et al. Minsk, 1986.

The work represents a union catalog of Belorussian publications issued in 1517-1917. The catalog has three sections. The first includes Cyrillic books from 16-18th centuries. The second covers books in Belorussian from the 19th century to the beginning to 1917. The third part includes books in Russian from the 19th century to 1917.

“Kniga Belarusi” includes all Belorussian books regardless of their place of publication. Russian-language books published in Belorussia are also included. Descriptions are arranged in chronological order with regards to the year of publication.

- *Каталог белорусских изданий кірилловскаго шрифта XVI-XVII вв.*, сост. В.И. Лук’яненко. Ленинград, 1993.
Katalog belorusskikh izdaniĭ kirillovskogo shrifta XVI-XVII vv., ed by V.I. Lukiananeko. Leningrad, 1993.

This bibliography is a guide to books in Cyrillic published in Belorussia and Lithuania from 1693 to 1800. The catalog includes 160 items held by the National Library of Russia (NLR). The catalog includes 12 books that have not been described before. It also includes books that can only be found in NLR.
